

Passenger Safety Rules on Vehicle

1. Passengers may not be in violation of any federal, state, county, or local criminal laws.
2. All Passengers must use safety restraint equipment and remain seated at all times.
3. No smoking, vaping, or alcohol on the bus.
4. Do not possess, use or sell any controlled substance.
5. Do not lean or extend the body or articles from the vehicle.
6. Passengers must keep the aisles clear at all times.
7. No soliciting, advertising, selling or distributing goods or services.
8. Passenger belongings must be kept in their lap or be stowed under the seat.
9. Do not carry or possess any dangerous weapons including but not limited to guns, knives, swords, box cutters or other devices that are capable of being used as a form of a weapon.
10. Do not possess or transport any flammable liquid, or other hazardous material. This includes, but is not limited to, gasoline, kerosene, propane, industrial chemicals, any other flammable chemical, and any toxic substance.
11. Proper clothing consisting of a top, bottom and shoes must be worn at all times. The top or shirt must conceal the front side of torso; the bottom or pants must conceal from the waist down to approximately 18 inches and if the shoes are of lace style, these laces must be tied.
12. All riders shall maintain appropriate and reasonable personal hygiene that is not seriously disruptive to fellow passengers. Urinating, defecating, vomiting, spitting or inappropriately discharging of bodily fluids on transit property will not be tolerated and is considered a health concern for our transit system.
13. Do not engage in disruptive, disturbing behavior including distracting the driver, disrespecting fellow passengers', loud conversation, profanity or operating any electronic device with sound without earphones. Verbal or physical abuse of fellow passengers, employees, or damage to equipment, vehicle or transit property will not be tolerated.
14. It is the passenger's responsibility, which is using the oxygen cylinder, to make sure each oxygen cylinder is secured to prevent movement and leakage. Each cylinder should be loaded and secured in an upright position. "Secured" means that the cylinder is not free to move when the vehicle is in motion.
15. It is the passenger's responsibility, which is using the oxygen cylinder, to make sure oxygen cylinders or other medical support equipment should never be stored or secured in the aisle. Make sure that the seating of the passenger requiring oxygen does not restrict access to exits or use of the aisle.
16. Since the release of oxygen from a cylinder could accelerate a fire, it is the passenger's responsibility, which is using the oxygen cylinder, to make sure each cylinder should be secured away from sources of heat or potential sparks. Securing personal oxygen tank is the passenger's responsibility.
17. When de-boarding the bus, please wait until the bus has pulled away before crossing the street.
